

# 7 × Table Multiplication Bingo

Multiplication Bingo makes learning times tables fun.

## You will need:

- 7 × table flashcards
- 7 × table sheet
- 4 bingo cards
- Scissors

This game is for  
2 – 4 players

## What to do

1. Cut out the flashcards and give each player a bingo card. (Check with an adult before using scissors.)
2. Read through the 7 × table sheet as a reminder.
3. Select someone who isn't playing to be the bingo caller. This could be an adult.
4. The bingo caller keeps the flashcard questions hidden.
5. The caller takes a flashcard, reads it out loud and holds it for everyone to see.
6. If you have the answer on your bingo card shout "Splat!" (or agree on another silly word).
7. The player who shouts first puts the flashcard over the right answer on their bingo card.
8. A player who shouts "Splat!", but does not have the right answer on their bingo card misses a turn.
9. Once all of your bingo card answers are covered, shout "BINGO!" The first person to do this is the winner.

1 × 7 =	7
2 × 7 =	14
3 × 7 =	21
4 × 7 =	28
5 × 7 =	35
6 × 7 =	42
7 × 7 =	49
8 × 7 =	56
9 × 7 =	63
10 × 7 =	70
11 × 7 =	77
12 × 7 =	84

## Top tip

If you want to practise your other times tables, why not make your own sets of flashcards and bingo cards?
