

# Year 4 SUMMER PROJECT

Your first topic in year 5 will be **Living things and their habitats**.

Here are some creative ideas to keep you busy over the summer.

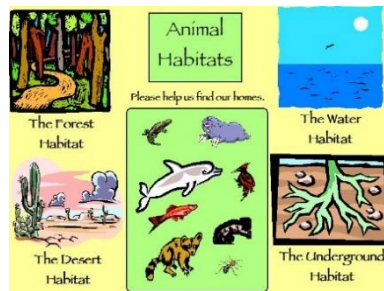

Remember to take some pictures to show us what you've been up to – have fun!!

## Create a picture of an animal

Draw, paint or build a model of an animal.

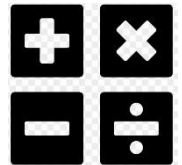

## Carry out some research into an animal's habitat

Create an information leaflet about your chosen animal's habitat.

## Mathematics

Practise adding, subtracting and multiplying three and four digit numbers. This will help you in arithmetic in Year 5 😊

## Write a book review

What have you been reading?  
Have you got a recommendation for your friends?  
Write down what you liked about your book and why.

## Create a collage

Show us what you have been up to in the summer holidays by sticking photos, pictures and drawing on a piece of paper to make a collage.

## Write a letter to your new teacher

What would you like your new teacher to know about you?  
What things do you love doing? How are you feeling about year 5? What do you want to know about them?
