05<sup>th</sup> March 2021

Dear Parents / Carers,

During the week commencing Monday 8<sup>th</sup> March 2021, we will be having a whole school STEM week (Science, Technology, Engineering and Maths), as part of British Science Week 2021.

British Science Week, this year, will be celebrating new inventions and future scientists. Children will be taking part in investigations, experiments and finding out about different jobs in this field. As part of this amazing week, we are inviting children to come dressed as a scientist or in non-uniform on Friday 12<sup>th</sup> March 2021.

In each class, children will be asked to choose a version from the theme, 'Innovating for the Future' and individually design a poster. The class teacher will then select a winner. We cannot wait to see what amazing ideas children come up with.

Examples of last year's winning posters and additional activities can be found at

<https://www.britishtscienceweek.org/>

You can also find lots of home challenges to complete experiments at home from the Wolverhampton University website below.

<https://www.wlv.ac.uk/schools-and-institutes/faculty-of-science-and-engineering/wlv-stem/stem-response-team/our-resources/stem-at-home/>

We cannot wait to see the amazing work during STEM week and we look forward to sharing the amazing discovery's with you all soon.

Yours faithfully

Mr L Fellows  
Headteacher
