Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2024 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Dunstall Hill Primary School
Number of pupils in school	481
Proportion (%) of pupil premium eligible pupils	47%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2021 - 2024
Date this statement was published	November 2021
Date on which it will be reviewed	December 2023
Statement authorised by	Lee Fellows
Pupil premium lead	Reena Chander
Governor / Trustee lead	Mark Smith

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£ 286 635
Recovery premium funding allocation this academic year	TBC
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£O
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	TBC

Part A: Pupil premium strategy plan

Statement of intent

At Dunstall Hill Primary School we believe that all pupils should be allowed to thrive to their fullest potential and become independent individuals. This includes pupils from all backgrounds regardless of where they come from. Our ambition is that every pupil, irrespective of background, feel like they belong – with the value of equity at the heart of our work.

The Education Endowment Foundation found that 'disadvantaged pupils have been worst affected by partial school closures, and that the attainment gap has grown as a result of national lockdowns'. At Dunstall Hill Primary School we aim to overcome these barriers and develop essential skills that may have been lost during the time of national lockdowns so that all our pupils can succeed, beginning with early reading, vocabulary and oracy development. In addition to this, we aim to provide our pupils with an inclusive first quality education and broad and balanced curriculum that is safe and secure with inspiring opportunities allowing all to grow.

Our objectives are:

- For all disadvantaged pupils in school to make or exceed nationally expected progress rates.
- To develop language and oracy skills to support pupil progress.
- To continue to develop and review the schools approach to inclusive teaching so that it leads to better outcomes for all pupils.
- To support pupil's health and wellbeing including SEMH needs, through effective pastoral care and parental involvement to benefit pupil's outcomes.
- To ensure that strategies to improve attendance are rooted in research evident to support persistence lateness and absence (Behaviour Change: School attendance, exclusion and persistent absence 2017).

Implementation:

- Delivering high quality inclusive teaching for all groups of pupils and ensuring that all teaching is good or better over time.
- Ensuring that teaching and learning opportunities are differentiated when appropriate to meet the needs of all pupils and to accelerate progress.
- Ensuring the needs of socially disadvantaged pupils are identified and addressed.
- Recognising that not all pupils who are socially disadvantaged are registered or qualify for free school meals. We reserve the right to allocate the Pupil Premium funding to support any pupil or groups of pupils the school has legitimately identified as being socially disadvantaged such as No Recourse to Public Funding (NRPF).
- Providing high quality evidence based interventions to address any learning gaps that may have arisen due to Covid-19, these may be in small groups or 1-1. Ensuring interventions do not significantly impact on curriculum equity.
- Supporting payment for activities, educational visits and residentials so that pupils have first-hand experiences to support their learning in the classroom, enriching their cultural capital.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Majority of pupils who join Dunstall Hill Primary School have significantly low starting points - in particular children's language and communication skills.
2	Attendance, punctuality and mobility. School community and families require support to develop and improve attend- ance and punctuality, currently disadvantaged pupils attendance is lower than that of the national average.
3	A range of languages are spoken by pupils (44 different languages) with a variety of fluency this impacts on language functions and grammatical skills, oracy and language.
4	Early identification of pupils with SEMH needs, as a result of the impact of the pandemic and deprivation .

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved reading, writing and maths attainment among disadvantaged pupils by the end of KS2.	KS2 outcomes in 2024/25 show that disadvantaged pupils achieve (at least) national progress and that attainment scores are in line with national figures.
Improved Phonics Screening Check (PSC) outcomes.	Year 1 PSC outcomes in 2024/25 show that the percentage of disadvantaged pupils achieving the PSC is in line with national figures.
Improved attendance of disadvantaged pupils in comparison to the Local Authority and national average.	 Sustained high attendance from 2024/25 demonstrated by: the overall absence rate for all pupils being at least in line with national figures. the percentage of all pupils who are persistently late being reduced.
Improved oral language skills and vocabulary among disadvantaged pupils.	Assessments and observations indicate significantly improved oral language among disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment.
To achieve and sustain improved wellbeing for all pupils in our school, particularly our	 Sustained high levels of wellbeing from 2024/25 demonstrated by: qualitative data from pupil voice, pupil and parent surveys and teacher observations.

disadvantaged pupils with SEMH needs.	 an increase in participation in enrichment activities, particularly among disadvantages pupils. a reduction of incident logs recorded by staff. a higher level of pupil engagement with SEMH needs is observed during lessons.
--	--

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: TBC

L

Activity	Evidence that supports this approach	Challenge number(s) addressed
Effective modelling in the EYFS provision to promote communication and early language development, through sustained shared thinking, verbal interactions and expression, language reasoning and guided interactions.	Communication and language approaches consistently show positive benefits for young children's learning, including their spoken language skills, their expressive vocabulary and their early reading skills: <u>https://educationendowmentfoundation</u> .org.uk/education-evidence/early-years- toolkit/communication-and-language- approaches Nuffield Foundation, 'Nuffield Early Language Intervention' (Website)	1, 3
Ensure all relevant staff receive ongoing training and support to deliver Read Write Inc. (RWI) and reading comprehension effectively so that teaching is never less than good and continue to diminish the differences.	Phonics has a positive impact overall (+5 months) with very extensive evidence and is an important component in the development of early reading skills, particularly for children from disadvantage backgrounds: <u>https://educationendowmentfoundation</u> .org.uk/education-evidence/teaching- learning-toolkit/phonics <u>https://educationendowmentfoundation</u> .org.uk/education-evidence/guidance- reports/literacy-ks-1	1, 3
Provide continuous professional development (CPD) for teachers and addition support staff to develop teaching and learning across school.	Where interventions are successful, pupils are carefully selected and taught by well qualified specialist teachers, or well-training and highly-competent teacher assistants:	1, 3, 4

Release SLT to provide training, coaching and mentoring.	https://www.gov.uk/government/public ations/the-pupil-premium-how-schools- are-spending-the-funding-successfully	
Ensure all staff further develop metacognitive talk (oracy – Voice 21).	Evidence suggests the use of 'metacognitive strategies' – which get pupils to think about their own learning – can be worth the equivalent of an additional +7 months' progress when used well: <u>https://educationendowmentfoundation</u> <u>.org.uk/education-evidence/guidance-</u> <u>reports/metacognition</u>	3
Provide pupils with high- quality feedback, using effective Assessment for Learning strategies (AfL), to support pupil progress. Through the success implementation of the PHMAT Feedback Policy.	Providing meaningful feedback, supports pupil progress, building learning, addressing misunderstandings, and thereby closing the gap between where a pupil is and where the teacher wants them to be: <u>https://educationendowmentfoundation</u> .org.uk/education-evidence/guidance- reports/feedback	1, 3
Ensure the use of effective modelling by activating prior knowledge and connections of key concepts, knowledge and skills to support pupil progress.	Modelling by the teacher is a cornerstone of effective teaching; revealing the thought processes of an expert learner helps to develop pupils' metacognitive skills: <u>https://educationendowmentfoundation</u> .org.uk/education-evidence/guidance- reports/metacognition	1, 3

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: TBC

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

Data was used internally and was submitted to the FFT schools' data service to provide an indepth analysis.

In 2022-23, there were 225 disadvantaged pupils. Of these 225;

- 119 were male and 106 were female
- 29 were on the SEN register
- 165 spoke English as an additional language (EAL)

Our internal data has helped to build a picture of where we are as a school with regards to diminishing the attainment gap between our disadvantaged and non-disadvantaged pupils and has informed our future planning actions. Over the past year we have continued to work on implementing strategies from our Pupil Premium strategy.

Improved reading, writing and maths attainment among disadvantaged pupils by the end of KS2

2023 outcomes at KS2 in Maths and SPAG are above national attainment scores. In Reading and Writing they are slightly below.

Attainment and progress are a focus so that differences continue to diminish and disadvantaged children are getting closer to achieving national progress and attainment scores.

Improved Phonics Screening Check (PSC) outcomes

2023 PSC outcomes were 9% higher than the previous year and 10% higher than the national average last year. Phonics' will still remain a priority and teaching will be closely monitored to ensure the high standards and expectation remain.

Improved attendance of disadvantaged pupils in comparison to the Local Authority and national average

2023 Attendance rate is slightly lower (-1.4%) than that of the FFT National figures. Attendance is closely monitored so that the differences are diminishing between vulnerable groups and that they are closer to national figure. School to continue to target children, alongside the EWO, who are persistently late and persistently absent in order to continue to improve attendance.

Improved oral language skills and vocabulary among disadvantaged pupils

Progression in Language Skills is embedded across most subjects in particular in English, Maths and Science. Small group interventions take place to develop oracy as well as whole class room specific teaching. DEAR time (reading for pleasure) has been introduce and timetabled in order to develop oracy skills across the curriculum.

To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils with SEMH needs

The Family Support Worker works very closely with families who require additional support. She completes wishes and feelings to gain a pupils perspective and then carries out interventions to give them the support they need. Interventions include supporting emotional needs, self-esteem needs and confidence. Pupils are discussed in weekly inclusion meeting and strategies are put into place for those needed.

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	N/A
What was the impact of that spending on service pupil premium eligible pupils?	N/A

Further information (optional)

Dunstall Hill Primary School is a two form entry primary school located in Whitmore Reans, Wolverhampton. The map below displays the areas of deprivation which surround the school and they are colour coded according to which national decile they belong to: decile 1 being the most deprived and decile 10 being the least deprived (IMD rankings). The immediate area in which the school is located is amongst the most deprived in the country. Our priorities for this year are to diminish any gaps for our disadvantaged pupils by quality first teaching and interventions. However, some pupils who are not classed as disadvantaged are still some of our most vulnerable pupils and our challenge is to reach all pupils who live in areas of high deprivation.
