Continue to read with your child daily and remember to sign their reading record.

P.E

This term in Year One the children will be learning a range of dance skills. Within this they will learn to understand the skill of moving parts of their body to the beat of the music.

Mathematics

The children will be building on their knowledge of multiples and will learn how to count in 10s. Alongside this, they will enhance their subtracting skills by subtracting 2-digit numbers. Also, the children will be focusing on measurement building on their skills of length and height. Lastly, the children will apply a range of their mathematical skills to solve word problems.

Knowledge Subjects

Geography – This term the children will be introduced to name location and characteristics of the four countries and capital cities of the United Kingdom.

Art – In art, the children will be exploring architecture. They will learn about the different building types and their purposes. They will look at the architectural design of cathedrals, creating their own version of stained-glass windows and a clay gargoyle.

Science

Through scientific investigation, the children will learn about the weather and seasons. They will learn how to identify typical weather patterns depending on what the season is. They will measure the weather using different tools such as thermometers, weathervanes and rain gauges. The children will record their findings using graphs and make predictions using their knowledge.

PSHE

The children will be learning about the different emotions and how to manage their own emotions. The children will have discussions based around feelings and how to express these in different ways.

Music

The children will be introduced to 'In the Groove' by Joanna Mangona. A song which includes six different styles of music: Blues, Baroque, Latin, Bhangra, Folk and Funk. The children will listen and appraise the different styles of music, learn the song and perform it.
